ONE SENTENCE — WHY

Through AI assistance and gradual adjustments, we transformed the original Python code into C++, a

CURRENT BLOCKER name the specific problem, not "it's hard"

Because we have just replaced the equipment, we are currently in the process of learning and debugg
after certain efforts, certain achievements were made. However, the product not only needs functiona
but also its appearance modeling. Our current block design is also a major factor in attracting users.

OUR ONE QUESTION FOR THE PATHFINDER

We are not sure whether this project requires a combination of software and hardware, and to what e
the integration should be carried out in order to achieve a satisfactory result.
